CAMBRIA ELEMENTARY

2024 SCHOOL-AGE SUMMER CAMPS

Summer Adventures at The Learning Lamp!

- School-age summer camps are for children entering grades 1 to 5.
- Camp meets Monday through Friday from 9 a.m. to 3 p.m. at **Cambria Elementary School**. *Students from any district are welcome!*
- Tuition is $150/week and includes extended-day care if needed (6 a.m. to 6 p.m.). Tuition is due one week prior to start date.
- Child care subsidy is accepted for families who qualify. For details, call the Early Learning Resource Center (ELRC) at 814-846-5130.
- **Children should bring a lunch, sunscreen and a water bottle. Children should wear sneakers.**

QUESTIONS? CALL 814-262-0732 x243.

SHINY & BRIGHT
June 3 - 7

Investigate the properties of light as we conduct experiments to understand how light travels and go on a scavenger hunt with flashlights!

ROBOT RUMBLE
June 10 - 14

Unleash your inner engineer as we breakdown the five parts that make a robot work, assemble a robot that doodles, and transform the top of a toothbrush into a robot bug that jumps.

NATURE EXPLORERS
June 17 - 21

Explore the natural world around you! Our nature scavenger hunt will have campers looking for all the colors in the rainbow. We'll learn about and compare different types of clouds as we create cloud reference books.

ROCKIN' REPTILES
June 24 - 28

Why do snakes stick out their tongue and how do they move without legs? Learn all about cold-blooded animals like snakes and turtles and make an alligator puppet with snapping jaws!

NO BONES ABOUT IT
July 1 - 5 ***(no summer camp on July 4)***

How many bones are in the human body? We'll find out as we learn how X-rays work, build a life-sized skeleton, and assemble a working arm to see how bones make our body move.

WONDERS OF THE WORLD
July 8 - 12

Buildings, walls, towers, and pyramids! Learn how ancient builders made old and famous structures without modern machines. Create your own structure and learn what it's like to live on top of a mountain like the ancient people of Machu Picchu.

MAGIC MAKERS
July 15 - 19

Abracadabra! Conduct hands-on science experiments so cool they seem like magic! Blow up a balloon without touching it, puncture a bag full of water without any leaks, make our hair stand on end, and defy gravity with a paper clip!

FORT WILDERNESS
July 22-26

Calling all campers! Who's ready for a week of outdoor fun? We'll construct working lanterns, play shadow puppet charades, and craft lightning bug jars.

STARRY NIGHT
July 29 - August 2

Explore the night sky as we weave yarn stars and work together to paint art inspired by Vincent Van Gogh!

WATER WORKS
August 5 - 9

Bring a beach towel and splash into summer! We'll smash a water balloon pinata, compete in a water cup derby, and play spray bottle tag.

MAGNIFICENT MOUNTAINS
August 12 - 16

Travel the globe as we visit Mount Everest, Mount Kilimanjaro, the Swiss Alps and more! Learn how mountains are created, meet the animals who live there, and learn survival skills to ensure our safety.

SENSE-ATIONAL ANIMALS
August 19 - 23

Super sniffers and extraordinary eyesight – animals have some truly incredible senses! Campers will explore the senses as we learn how animals use theirs to survive and thrive in their habitats.
